

Policy Learning Platform

Policy Briefs

- [University – Industry Collaboration](#)
- [Industry 4.0](#)
- [Policy challenges in exploiting research and innovation infrastructure](#)
- [Cooperation, complementarities and alignment of different funding sources for a more efficient use of resources](#)
- [The challenges and necessity of rural innovation](#)
- [The role of staff exchange and mobility schemes in accelerating innovation policy transfer and uptake of good practices](#)
- [Towards synergies between S3P-Industry and Interreg Europe projects](#)
- [The ins and outs of the Vanguard Initiative](#)
- [Engagement of private investments to bring research and development results to the market](#)
- [Enabling synergies through coordination between H2020 and ESIF](#)
- [The triple helix challenge: Bridging the gap between science and policy making](#)
- [The regional ecosystem scoreboard methodology: a tool to help analyse regional development framework conditions](#)

- [The potential of cross sectoral value chain innovation](#)
- [Digital transformation and SMEs: what regions can do](#)
- [Public-private startup accelerators in regional business support ecosystems](#)
- [Business acceleration schemes for start-ups. Focus on internationalisation](#)
- [Access to finance for innovative SMEs](#)
- [Role of regional networks and clusters as an instrument for internationalisation of SMEs](#)
- [The SME policy of the European Union](#)
- [The role of regions in the implementation of the Small Business Act for Europe](#)

Low-carbon economy

- [E-mobility](#)
- [Promoting Active Modes of Transport](#)
- [One-Stop-Shops](#)
- [Demand responsive transport](#)
- [Sustainable Urban Mobility Plans](#)
- [Behaviour change for energy efficiency](#)
- [Renewable Energy Communities](#)
- [Funding Energy Efficiency through Financial Instruments](#)
- [Improving energy efficiency in buildings](#)
- [Financing energy efficiency: models and lessons](#)
- [Smart grids: flexibility from new sources needed to make renewable power work](#)
- [Promoting the Low Carbon Economy in the EU: EU Policies and the Role of Cities and Regions](#)
- [Promoting the low carbon economy in the EU: planning for sustainable urban mobility](#)

Environment and resource efficiency

- [Urban ecosystems: The importance of green infrastructure and nature-based solutions for the development of sustainable cities](#)
- [Circular Economy Business Models in the EU](#)
- [Food waste](#)
- [Citizen engagement in the protection of cultural heritage](#)
- [Ecosystem services: Interregional cooperation for sustaining the European natural capital](#)
- [Sustainable tourism: an opportunity for regions to benefit from their cultural and natural heritage](#)
- [Role of Green Public Procurement in improving resource efficiency](#)
- [Protection and sustainable management of heritage in coastal and fluvial regions](#)
- [Digital solutions in the field of cultural heritage](#)
- [Eco-Innovation in Europe](#)
- [Use of technologies for better protection and management of nature and biodiversity](#)
- [Cultural Routes in Europe](#)
- [Cultural heritage in urban areas: Sustaining heritage in cities and towns](#)
- [Protection and sustainable management of cultural heritage: The role of regional cooperation in preserving cultural heritage](#)
- [The role of cities and regions in promoting resource efficiency across the EU](#)
- [Protection of biodiversity and natural heritage: Exchange of experience and policy learning for greener Europe](#)
- [Industrial symbiosis](#)
- [Sustainable management of bio-waste: Regional cooperation for improved bio-waste management](#)
